Do not bleach

 \odot

Dry gently and carefully Do not iron

 \bowtie \boxtimes

No chemical dry cleaning

Washing

- recommendation: wash before wearing for the first
- wash daily by hand (max.40°C) or on the delicate setting in your washing machine
- was separately and use detergent for delicate fabrics (such as "Ofa Clean special detergent"), do not use fabric softener
- rinse well, spin gently and do not wring out - leave to dry on a towel or use the cool setting in your dryer; never iron, and do not dry on a heater or in the sun

Material composition

Made of polyamide (Polyamid), elastane (Elastan) and either cotton (Baumwolle) or merino wool (Merinowolle). Please refer to the textile label sewn into your stocking for the precise details.

Care

- keep dry, preferably in the original packaging, and
- protect against direct exposure to sunlight and heat. do not allow stockings with silicone-coated grip tops to come into contact with solvents, ointments, creams and moisturising body wash, since this can permanently impair the adhesive properties
- regular footcare and proper footwear are essential - pilling is a normal occurrence in textiles and does not constitute a reason for refund
- never repair damaged stockings yourself; take it to the retailer where you made the original purchase

Intended use

Compression stockings are used to treat phlebological and lymphological arm and leg conditions, as well as for lipedema. Different products are used depending

Effective principle of medical compression stockings

Products tailored to the respective indication and controlled pressure accelerate blood reflux, improve microcirculation in the tissue and increase lymph flow.

⚠ Important information

- Wear compression stockings only after speaking to your doctor
- Successful treatment requires daily wear and regular
- Medically trained professionals must provide the
- stockings and show you how to put them on properly If you experience acute leg pain or skin reactions, contact a doctor immediately
- Regularly shifting the adhesive tape slightly can help prevent skin irritation
- Please contact the retailer if you notice any quality issues or have a complaint
